conservation
COMMUNITY NURSERY Inc

THE NURSERY IS AT ITS BEST RIGHT NOW:

The KCons nursery is fully stocked – we need to move the plants out and it's a great time for you to plant them at your place. Apart from our range of plants for screening, bank stabilisation, food trees for wildlife and habitat, we have some ferns:

BIRDS NEST FERNS (*Asplenium nidus*)

SCALY TREE FERNS (*Cyathea cooperi*). This is the only local tree fern that grows well in full sun.

TREE FERN TREES: Tree ferns give quite a different look to your garden – easy to plant and maintain.

1 Pademelon Lane, Kuranda 4881 Phone: 4093 8834

WE'RE HAVING A REFRESHING MAKE-OVER

If you go to www.kurandaconservation.org you'll discover our new look - young, fresh and bright.

Our new website is full of information and links to everything you'll want to know about our local environment.

PIGS: Numbers are on the rise again. Sows with young ones have been tipping over rubbish bins and digging up gardens. Let's know if you need help.

CASSOWARIES: It is the season for making chicks again. Last year's chicks are looking for new ranges (getting harder to find every year) while the adult females are eyeing off the males! Young birds may be crossing roads more frequently **PLEASE TAKE CARE, BE AWARE.**
